

CALLING ALL Development professionals and volunteers!

My Blind Spot (MBS) is looking to build a strong Development Team to further the mission and vision of our organization. MBS is looking for time, talent, and treasure from professionals or volunteers with a strong background in development, grant writing, donor development and fundraising. We are working to advance equal access and promote understanding, respect, and opportunity for people who are blind or print disabled.

My Blind Spot has built a promising revenue stream with the services we provide through our educational and outreach programs and the product offered through our website. Now we need to strengthen our position in the community by securing funding to ensure that ALL people have access to the right tools in order to promote ability and restore infinite possibilities.

My Blind Spot is committed to addressing virtual access issues present in corporate America that prohibit millions of people from enjoying gainful employment. We work to open virtual doors while educating and guiding software engineers, web developers and IT professionals about how to incorporate the simple programmatic codings into all they do in order to empower people who are blind and print disabled to lead productive lives and to pursue employment on par with their nondisabled peers. MBS is dedicated to educating professionals across the board about accessibility while infusing the concepts of usability and accessibility into the DNA of our client's corporate culture and ensuring adherence to the World Wide Web Consortium, the W3C, and virtual compliance and conformance as protected/mandated by Federal law as outlined in the Rehab Act of 1990.

Thanks to corporate sponsorship, philanthropic foundations and our grass root supporters, My Blind Spot has secured significant and meaningful funding to open the virtual doors of opportunity and employment for people who are blind and print disabled. In order to keep this momentum of opening doors of employment for millions and millions of people, we need the time, talent and treasure from passionate and skilled Development professionals. With the right partners we can secure funding from philanthropic organizations and federal/state government, focusing on the advancement of equal access and employment for people who are blind, visually impaired and print disabled.

If you possess the skill set to help us make this happen, are looking to work from home and are willing to discuss compensation that will ramp up, working toward the possibility of a regular partnership for development, including competitive compensation, then contact us immediately! We are

also open to working with volunteers and novice grant writers who are seeking internship opportunities.

Successful applicants will be:

- Empathetic
- Creative
- Self-starters

Necessary skills/experience:

- Experienced researchers
- Acquainted with the disparities facing people with disabilities
- Excellent interpersonal communication skills
- The ability to work cooperatively within a team setting

Interested parties should contact us at [info@myblindspot.org](mailto:info@myblindspot.org).

My Blind Spot is a 501(c) 3 tax exempt organization
